Voice - Pursuant to 47 C.F.R. § 54.313(a)(5) and or 47 C.F.R. § 54.422(b)(3) Wheat State Telephone, Inc. ("Wheat State") is in compliance with appropriate FCC Service Quality Standards, Consumer Protection Rules, Kansas billing practice standards and quality of service standards.

Broadband - Wheat State provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a "best effort" service and are dependent upon a number of variables, many of which are outside the control of Wheat State. Wheat State also complies with the FCC's Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require Wheat State to publicly disclose information regarding its management practices, performance, and the commercial terms of its broadband services.

Wheat State provides CPNI training to all of its new employees and in addition trains all of its existing employees on an annual basis. Wheat State also conducts subscriber outreach regarding CPNI by periodically placing CPNI explanation messages into subscriber's bills and also has signage in its business office regarding CPNI rules and regulations. In addition Wheat State trains staff on Red Flag issues on an annual basis. All company employees are required to sign and acknowledge that they have completed CPNI and Red Flag training and understand obligations to adherence of applicable rules.

Wheat State has submitted quarterly LEC Quality of Service metrics with the Kansas Corporation Commission ("KCC") and has not had failing benchmarks. Wheat State is able to accomplish meeting the metrics by ensuring employees are properly trained, equipment is kept operational and spare equipment is available when needed. Wheat State is properly staffed to exceed quality of service benchmarks. Lastly, Wheat State is in full compliance with KCC billing practices standards including itemizing service and service charges, and taxes. Wheat State also provides alternative billing and has a link on its website where subscribers can view and pay their bills. Wheat State has updated its billing system and trained its employees to insure that it is in compliance with standards for payment, deposits, and disconnection procedures.

Functionality in Emergency Situations:

Voice and Broadband - Pursuant to 47 C.F.R. § 54.313(a)(6) and 47 C.F.R. § 54.22(b)(4) as set forth in 47 C.F.R. § 54.202(a)(2) Wheat State Telephone, Inc. (“Wheat State”) meets the requirements to remain functional in emergency situations and has the following capabilities: Wheat State’s central office and remote offices are all equipped with batteries and natural gas generators that provide a minimum of 8 hours of uninterrupted power with an almost unlimited back up supply of fuel for generators to recharge batteries in cases of loss of power. In addition, Wheat State has recently upgraded its network and has deployed FTTH technology and has supplied FTTH homes with 8 hours of battery back up at the optical network terminal at the subscriber home.

Wheat State has deployed SONET and Ethernet network technologies in its network. In addition, Wheat State has properly prepared itself for any network outages by having redundant and diverse routing in place to manage any outages and has purchased spare cards for all of its core network equipment for fast replacement should there be a card failure. In instance of fiber cuts, Wheat State has its own fiber technicians and fiber splice equipment in house to assist in an expeditious repair of any fiber cuts. For added security Wheat State has connectivity with the AT&T Wichita tandem and also has connectivity to the Kansas Fiber Network. Both of these options provide Wheat State with diverse options to reroute traffic should an emergency situation arise.

Lastly, Wheat State has developed network preparedness plans in cases of emergency situations. Wheat State has sufficient capacity within its switching network to handle call spikes in emergency situations and its staff has been sufficiently trained of preparedness plans to minimize any and all outages during emergency situations.
